In a classroom environment enriched by French culture and language, your children will develop social skills through age-appropriate group activities, such as movement, music and crafts; using pictures, flannel board and puppets, they will share stories, songs, poems and games; they will also be able to express themselves by acting out stories and creating their own imaginative tales, making puppets and drawings.

Class is conducted in French with assistance in English only when necessary. Activities will tap children's natural curiosity and stimulate their intellectual, motor and artistic skills, as well as social development. A light snack will be prepared and served by teachers and their pupils.

Note: Each class requires a minimum of 5 students and is limited to 10 participants.
